DON'T LIVE AMID DISCOMFORTS!

By OUR PLAN of Designing, Financing, Constructing and Operating COMPLETE Systems, WE CAN SHOW ANY TOWN that WANTS TO GROW,—Municipal IMPROVEMENTS PAY.

Waterworks, Electric Lights, Sanitary Sewers

Mean HEALTH COMFORT and GROWTH for ANY TOWN, when intelligently handled.

Let us send list of cities and small towns in NORTH CAROLINA and adjacent States (over 300), plants we've built.

Profit By Their Experience

Kerosene or gasoline lights, surface wells and country sanitation were all right for towns 50 YEARS AGO—but no normal town of 600 population or over CAN AFFORD this NOW.

A postal will bring information of value.

DON'T DELAY!

STATE GOVERNMENT---JUDICIAL DEPARTMENT

THE SUPREME COURT OF NORTH CAROLINA.

Walter Clark, of Wake, Chief Justice.
Platt D. Walker, of Mecklenburg, Associate Justice.
William A. Hoke, of Lincoln, Associate Justice.
George H. Brown, Jr., of Beaufort, Associate Justice.
Wm. R. Allen, of Wayne, Associate Justice.

Weldon T. Smith, of Raleigh, Office Clerk.
Robert H. Bradley, of Raleigh, Marshal and Librarian.
S. W. Walker, of Raleigh, Janitor.
Robert C. Strong, of Raleigh, Reporter.

The Supreme Court meets on the first Monday in February and the last Monday in August of each year. The call of appeals from the judicial districts begins on Tuesday of each week during the term.

APPLICANTS FOR LICENSE TO PRACTICE LAW.

Each applicant must have attained the age of twenty-one years, and must have studied:
Ewell's Essentials, 3 volumes.
Clark on Corporations.
Schouler on Executors.
Bispham's Equity.
Clark's Code of Civil Procedure.
Revisal of 1905.
Constitution of North Carolina.
Constitution of the United States.
Creasy's English Constitution.
Sharswood's Legal Ethics.
Sheppard's Constitutional Text-Book.
Cooley's Principles of Constitutional Law (or equivalent).

Each applicant must have read law two years at least.

Examinations for license to practice law are held on the first Monday in February and the last Monday in August of each year. The examinations are in writing.

Conditions Precedent to Examination.

Before being allowed to stand an examination each applicant must comply with the following conditions:

1. He must be at the time twenty-one years of age, or will arrive at that age before the time for the next examination.

2. He must file with the Clerk of the Court a certificate of good moral character, signed by two attorneys who practice in that Court, and also a certificate of the dean of a law school or a member of the bar of this Court, that the applicant has read law under his instruction or to his knowledge or satisfaction for two years, and upon examination by such instructor has been found competent and proficient in said course. Such certificate while indispensable, will of course not be conclusive evidence of proficiency. An applicant who has obtained license to practice law in another State, in lieu of the certificate of two years reading and proficiency, can file (with leave to withdraw) his law license issued by said State.

3 He must deposit with the Clerk twenty-three dollars and fifty cents. Of this sum one dollar and fifty cents shall be retained by the Clerk and two dollars is for printers for the parchment on which the certificate of license is issued. If the applicant obtains license the remaining twenty dollars shall be paid by the Clerk to the librarian for use of the Supreme Court library. If the applicant fails on examination the twenty dollars shall be repaid him.

NORFOLK SOUTHERN RAILROAD

SERVES THIRTY-FIVE COUNTIES

IN

NORTH CAROLINA

Connects Norfolk and the Carolina Coast Country With Charlotte and the Plains of the Piedmont

COVERS NORTH CAROLINA LIKE A BLANKET

The new Norfolk Southern System, with over nine hundred miles of main and branch line trackage, now gives the Old North State a service unequalled in its history.

The productions from the East, from the truck fields, the Sounds and the Ocean, will now be in quick touch with the enterprising country of the West, the sand hill section, the lands of fruit, grain and minerals.

QUICK TRANSPORTATION and the possibility for the exchange of products will work greatly to the advantage of both the East and the West portions of the country, now so closely linked together by the Norfolk Southern System.

IN CORN PRODUCTION North Carolina has records that lead the world. Within the State there are over 3,000,000 acres of undeveloped lands, typical corn growing soils, awaiting the experienced corn growers of the West, to change these idle acres into rich producing farms.

CORN AND COTTON JOIN HANDS IN NORTH CAROLINA.

The Soil, Climate and Rainfall conditions of the State combine for the favorable growing of both Corn and Cotton, a condition elsewhere unknown.

THE GREAT ADVANTAGES of the Carolina territory served by the Norfolk Southern, can be better understood by corresponding with the Industrial Department of the railroad at Norfolk.

ADDITIONAL INFORMATION concerning manufacturing locations, timber supplies, farm lands, and resort points, will gladly be furnished for the asking. Address:

DEMOCRATIC STATE PLATFORM---1912

We, the representatives of the Democratic party, in convention assembled, reaffirm our devotion to the time-honored principles of constitutional government as established by the fathers of the republic, and to the still greater principles of human equality as proclaimed by Jefferson, with equal rights to all and special privileges to none, and hereby declare:

We favor an income tax.

We favor the election of senators by a direct vote of the people.

We oppose subsidies in any form.

We favor publication of campaign funds, both before and after primaries, conventions and elections.

Corruption in Elections.

We condemn the corrupt use of money, or other corrupt means, to influence voters in primaries, conventions and elections, and we favor the enactment of such criminal laws as will effectually prevent such practices.

Public Roads and Natural Resources.

We favor the improvement of our public roads and highways, wise and reasonable drainage laws, and the conservation of all our natural resources.

Pensions and Public Institutions.

We favor and indorse the policy of the Democratic party in the pension of the Confederate veterans of the State, and pledge ourselves to a continuation of such policy.

We pledge ourselves to the continued development of the internal affairs of the State; to the maintenance of the institutions for the insane, deaf, dumb and blind, and all other charitable institutions of the State, and to the extension and enlargement of these institutions to meet the demands upon the State and the needs of the unfortunates who require the care and maintenance of the government.

We indorse the policy of the Democratic party of the State in its support of the educational institutions of the State, and we pledge

"THE ATLANTIC COAST REALTY COMPANY, GREENVILLE, N. C.

the wide-awake auction real estate people. Write for particulars."

ourselves to as liberal appropriations for the support, upbuilding and development of such institutions as the finances of the State will permit.

Education.

We believe education to be one of the fundamental needs and chief functions of all government. We believe in the inherent right of every child to an equal chance to develop, through education, every power within him for citizenship and service, and it is the duty of the State to place adequate opportunity for such development within the reach of every child.

We congratulate the people upon the fulfillment of the pledge of the party for a four-months' public school in every district of the State; upon the building of more adequate school houses in the school districts of the State, and upon the educational progress made under the administration of the Democratic party. We favor the continued support and increased efficiency of the public school system in the State, and the enlargement of the opportunities of the children of the State to obtain an education, and we favor an increased length of public school term as fast as practicable. We favor proper provisions for such instruction in the public schools as will foster an interest in country life, and furnish better preparation for more profitable farming and more comfortable living in the country.

Control of Public-Service Corporations.

The supervision and control of public-service corporations is a well-recognized right of the State and national governments, and we pledge ourselves to the enforcement of this right in the interest of the people of the Stat,e, consistent with fair and just treatment of the public-service corporations; and no public-service corporation shall grant any special privileges or other favor to any person or corporation.

Trusts and Monopolies.

We are opposed to, and demand the suppression of, trusts and monopolies, and favor the enactment of such laws in both State and nation, with such necessary machinery and powers, as will make their existence impossible. We believe that guilt is personal, as well as corporate, and we demand that all anti-trust laws be enforced, both by the civil and criminal processes of our courts.

Tariff.

We denounce protection as a robbery of the many to enrich the few, and we favor a tariff limited to the needs of the government, economically administered, and so levied as not to discriminate against any industry, class or section, to the end that the burdens of taxation shall be distributed as equally as possible.

We favor a revision and reduction of the tariff to a revenue basis by the friends of the masses and for the common weal, and not by the friends of its abuses, its extortions and its discriminations; keeping in view the ultimate end, of "equality of burden and equality of opportunities" and the constitutional purpose of raising revenue by taxation, to wit, the support of the Federal government in all of its integrity and virility, but in simplicity.

Indorsement of State Administration and Senators and Representatives in Congress.

We heartily indorse the record of our senators and representatives in the Congress of the United States, and the administration of our State's affairs by our governor and other State officers.

We have faith and confidence in the intelligence and patriotism of the people of the State, and in the ultimate development of our unrivaled natural resources, and we call upon all North Carolinians to unite in one common effort to continue in power the administration of the party under whose government the State has made such rapid strides and development since its advent to power.

REPUBLICAN STATE PLATFORM---1912

REPUBLICAN PLATFORM, ADOPTED AT CHARLOTTE, N. C., ON SEPT. 4, 1912.

We, the Republicans of North Carolina, in convention assembled at Charlotte, N. C., September 4, 1912, reaffirming our allegiance to the principles o fthe Republican party, and pledging our most loyal support to William Howard Taft for president and James S. Sherman for vice-president, declare that we favor and pledge our party to legislation to the following ends:

First. We favor local option, and pledge the party to the enactment of such a law as the wisdom of the party shall dictate.

Second. We favor the enactment of such legislation as will insure to every elector registered under the Grandfather Clause the right to vote.

Third. We denounce the Democratic party for the enactment of the present unfair and unjust method of arriving at tax values and the expensive and useless machinery for the listing of property in the State.

Fourth. We demand that the public school cease to be used as a political machine and that under the time-honored principle of local self-government a public school system be adoptedadopted, in which the people and not the politician shall control and thus forever eliminate politics from our school system.

Fifth. We demand that the discrimination against our State and her cities in freight rates shall cease.

Sixth. We demand the passage of a strong anti-trust law, as broad as the State's power will permit, and that the Legislature give the corporation commission complete control over all insurance companies and public-service corporations in the regulation of rates, requiring of such companies and corporations a complete and specific accounting of their business to the end that unfair and illegal monopolies be destroyed, and no excessive rates be charged.

Seventh. We again reaffirm our allegiance to the principles of local self-government, and denounce the continued betrayals of this principle by the Democratic party, and we pledge ourselves to the passing of such laws as will restore to the people the right to elect their school trustees, justices of the peace, all county officers and members of the boards of education and superintendents of the public schools.

Eighth. We favor an exemption from taxation of two hundred ($200.00) dollars on personal property to every householder, and we favor the furnishing of free text-books to public school children of the State.

Ninth We pledge ourselves to liberally increase the pensions of the Confederate soldiers.

PROGRESSIVE STATE PLATFORM---1912

PLATFORM OF PROGRESSIVE PARTY, ADOPTED AT GREENSBORO, SEPT. 3, 1912.

We, the representatives of the Progressive party in North Carolina, in our first State convention assembled, conscious of our responsibilities as citizens and convinced of the righteouness of the cause we espouse, confess our faith in the national Progressive platform, pledge our efforts to promote their enactment into law, and declare our allegiance to Roosevelt and Johnson, the distinguished candidates of the party for president and vice-president of the United States.

Confronted for years in this State by unfortunate political conditions, which excluded intelligent political discussion of State affairs, embittered public discussion, and produced political intolerance, we may now congratulate ourselves as a people that the baneful era is passed, and, in this nation-wide progressive movement toward higher ideals of statesmanship in dealing with economic, social and industrial questions, which press upon us as for solution, there is no place for the antiquated issues of a dead past. Every man, we believe, whose conscience is awake to the obligations of citizenship should intelligently and resolutely, at whatever sacrifice, align himself with that political party which represents his views as to State and national issues. This is freedom. This is liberty. It is patriotic duty.

National Platform.

The national platform of the Progressive party in its stand for only "honest protection" which shall "equalize conditions of competition between the United States and foreign countries both for the farmer and the manufacturer, and which shall maintain for labor an adequate standard of living;" for the conservation of our natural resources; the drainage of our swamp lands and the building of reservoirs to supply water to our arid wastes; for governmental efficiency in all departments of our government, executive, legislative and judicial, with the recall of judicial decisions on constitutional questions; for the restoration of this government from the rule of the bosses, who are the subservient tools of the special interests, to the rule of the people as expressed in primaries and elections; for the betterment of the conditions of farm life, protection to working men, and minimum scale of wages for working women; for control and regulation of railroads and corporations, but for social and industrial justice applied to all classes and conditions of society; and in outlining a program of practical legislation for needed reforms, constitutes in itself a call of righteousness to the patriotic citizens of this land.

Appeal to Electors.

We, therefore, appeal to the electors of this State, whatever their past political affiliations, to read and digest our platform with impartial consideration and, if in accord with its views, to unite with us in this progressive movement to attain for the people the much needed legislation.

In the spirit of progress, looking forward and not backward, we believe the time has come in this State for its citizens, who would lay broadly and deeply the basis of our future civilization on practical achievements and firm moral standards, to unite their efforts in bringing about social, industrial, legislative and judicial reforms in the State, as well as the national government.

We need the spirit of a broader statesmanship in this State, the vision of things to be done in the service of the people, and the devotion of men to the substantial welfare of the State, apart from personal ambition, and the concentration of the public mind upon our agricultural, industrial, educational and moral advancement.

We, therefore, applying the progressive spirit of the affairs of State, advocate:

Primaries and Elections.

1. Honesty in the conduct of primaries and elections. There is no difference between political and personal honesty in any standard of morals. The corrupt use of money in party primaries and public elections is a growing evil in this State. The sacredness of the ballot box is essential to the preservation of our liberties. We favor the passage of a corrupt practice act, applicable alike to all primaries and elections, requiring publicity of campaign expenditures, and making all improper use of money, methods or means,

tending to debauch the electorate, a felony in the person or persons in the wrong; and when such means are employed, the offender shall forfeit his suffrage and the candidate benefited thereby the right to the nomination, if chosen, or public office, if elected. The hope and permanency of our institutions depend upon honest elections and high standards of personal responsibility in the exercise of their franchise.

Public Schools.

2. Our public schools should be adequate to meet all reasonable demands. No false economy should thwart the opportunity of any boy or girl in the State to obtain an education. Their education is an imperative and sacred duty. The State should provide free school books and a longer school term. Education should be compulsory in all counties which may vote by a majority of the electors so to make it. County superintendents of education should be elected by the people. We condemn as unjust the practice of making school districts so as to lay the special tax schooling on corporate or other special property owners. Education in the public schools should be directed to equipping the boy for some practical occupation, and the girl in a knowledge of domestic science and economy. Our lady teachers, now underpaid, not averaging salaries greater than paid to uneducated colored day laborers, should be adequately compensated for their services that they may be able the better to equip themselves for their work, and others to be encouraged to enter the profession. Chivalry to them demands it. This is social justice.

3. The public institutions of this State, alike educational and charitable, should be liberally sustained, but in the interest of efficiency and wise economy, all supplies to these and other departments should be purchased and supervised by a non-partisan commission to be appointed by the governor. Estimates of materials required should be made at the beginning of each year and contracts awarded, after advertisement, to the lowest bidder, the materials to be delivered as required in the current year; thus enabling the State to purchase in quantities at the lowest price. It has been said by a leading business man, once a member of the board of one of our public institutions, that three intelligent business men, supervising the expenditures of all of our public institutions, could save the State $75,000 annually.

Board of Health.

4. The Legislature, in concurrence with the medical societies of the State, should liberally sustain and extend the work of the State board of health by appropriating ample means for its efficient maintenance in disseminating a knowledge of sanitary laws and the eradication of preventable diseases. Statistics show that the death rate from typhoid fever in North Carolina is four times the average in Switzerland. No people can be a great people who are not strong, virile and healthy. The State should take every possible means known to modern science to preserve the health of its people. Our climate naturally is healthy and invigorating and we should maintain a high standard of public health by the strict enforcement of all sanitary laws.

Penal Institutions.

5. Our penal institutions should be corrective and reformatory in their purpose. Prisoners should be treated humanely. Murder is murder, whether committed by prison guard or other person and discipline is not dependent upon severity. The parole system should be introduced and liberally granted to prisoners. Convicts should be employed only on public works and roads. Society derives no economic benefit when it imprisons the citizen, whatever his crime, and deprives those dependent upon him of support and pockets the proceeds of his labor. The profit derived by the county or State from the labor of convicts falls on the innocent wife, child or others whom the convict may have supported. We, therefore, advocate the passage of a law requiring the State or county to pay to the family of the convict all income derived hrom his labor at a lair compensation over and above his necessary support while confined, and laws which will put into practice such training as will better fit the convict for citizenship when discharged. This is enlightened social justice.

Registration Laws—Torrens System.

6. Our registration system is antiquated. We favor the adoption of the Torrens system. The State should undertake a State survey of its territory on lines by which all titles may be ultimately conveyed. The Torrens system means that the owner of the land, at his option, submits his title to examination,

the State corrects all defects, if any, guarantees the title and possession and issues to the owner a certificate which certifies his title. A duplicate of the certificate is retained at the register's office, and on the transfer of the property the certificate is surrendered to the register, cancelled, and a new certificate issued to the purchaser. The land cannot be conveyed afterwards except by a surrender of the certificate. Temporary loans can be made by attaching this certificate to a note, since, without the possession of the certificate, the owner could not part with the property, in the same manner as stock certificates of corporations are used as collateral. The State in the first instance collects a small percentage on the tax valuation, which is paid into a fund to protect its guaranty. This system would bring land into an active market as collateral, facilitate transfers, add to land values, and enable small loans to be made without the expense of legal examination and the drawing of deeds. If necessary, we favor a constitutional amendment to make this system permanent and effective in this State.

Tax Laws.

7. Our tax laws should be modernized. Hundreds of thousands of dollars on personal property escape taxation. Local tax assessors undervalue land to avoid the payment of taxe to the State on a proper valuation. Laws should be passed to equalize tax assessments, so that all property should bear pro rata the burden of taxes.

The Courts.

8. The Legislature, in concurrence with the bench and bar of this State, should remodel our court procedure. "The law's delay" is proverbial, but its very life is in the prompt enforcement of criminal law and in the redress of private grievances without delay. The non-enforcement of the law in many sections of our State has become a public scandal. There is no use of passing statutes without enforcing them and you cannot enforce them without the means to do so. The attorney general's department should be given greater power and should be allowed legal assistance to manage all litigation in which the State is involved and supervise the proper enforcement of criminal statutes. There should be a contingent fund placed at his disposal to be used by him when the emergency arises for the detection and punishment of criminals. Our system of criminal law and detection should be adjusted to meet the conditions of a more complex population.

Freight Discrimination.

9. The discrimination of freight rates against the cities and towns of this State is a matter of serious import and continuous loss to our people. In the short-sighted policy of the lease of the North Carolina railroad, at midnight and secretly, several years in advance of the termination of the old lease and for a period of ninety-nine years, at the rate of seven per cent. on the stock held by the State, and the parting with the control of that property, is partly the occasion of the discrimination, and when it appeared the State could have leased it at 10 per cent., if competition had been open, the direct loss to the State is the difference between 7 and 10 per cent., or the loss of $90,000 each year for the period of ninety-nine years, and the inexcusable action of the State Legislature of 1899 in permiting the dismemberment of the Cape Fear and Yadkin Valley railroad, when a former Legislature had prohibited its dismemberment and the Federal courts held

it could not be legally done, without legislative permission, whereby the road was divided, the western half passing to the Southern and the eastern half to the Coast Line, is another cause of freight discrimination. This dismemberment cut 1,500 square miles of trading territory from the seaport of Wilmington, subordinated the control of the western section of the road to Norfolk and northern markets, and destroyed the benefit of lower freight rates in competition with the water rates through Wilmington and Southport. These wrongs to the State serve to illustrate the domination of public and legislation by the special interests and, in the latter case, was concurrent with large contributions of the railroads to the campaign fund of the dominant political party. The loss to the State directly or indirectly has been incalculable. We favor the proper action by the State Legislature through the courts and by appeal to the State and Interstate Corporation commissions to ameliorate the unjust discrimination in freight rates against this State.

Corporations.

10. Corporations, industrial and railroad, are necessary agencies for our material development, and they should be protected in their just rights and accorded a "square deal," but, they should be required at all times to conduct their operations in fairness to others, and the public interests. We oppose industrial corporations known as trusts; favor the repeal of the present State statute permitting one corporation to own stock in another, and the passage of a law which will prohibit it and prevent all combinations in restraint of trade which are oppressive and unreasonable.

Water Powers.

11. The natural water powers of the State should be owned and controlled by the State. The development of these water powers, under the State's supervision, would repay with interest the cost and largely contribute in time to the State's revenue. The concrete dam once constructed the power could be leased to electric companies for transmission under conditions which would prevent the possibility of private monopoly. The Legislature could make provision to acquire by condemnation for the public use all undeveloped water power and the credit of the State should be used for this development as the power could be used. This would be conservation of our natural resources.

State Canals.

12. The Federal government is now opening up the Cape Fear river from Wilmington to Fayetteville with a permanent eight-foot channel. The State should supplement this work of the government by extending an inland canal system, which is feasible and was once begun, but abandoned in the early history of the State. The effect would be to give central North Carolina a water rate to the ocean.

Employers' Liability Act.

13. We favor the passage by the State of an employers' liability act, providing for compensation of injured working men, similar to such statutes adopted by the Federal government and in other States; the abolition of the doctrine of contributory negligence and assudption of risk in all cases, and laws to safeguard workmen in dangerous employments. The fact that in industrial plants operating machinery, and on railroads, over one-half of a million injuries occur annually, as reported to the accident insurance companies, make such laws imperative as a duty to humanity.

14. We favor the creation of State loan and land banks to be operated under State supervision and control loans to be made on real estate only within a given radius of the location of each bank, such banks not to be allowed to engage in commercial banking. Object: to utilize the capital of each community in facilitating loans, bring land into the market as collateral, and to employ through the medium of the bank the savings of the people to the advance of their own community. The commercial bank and the savings bank each have distinct functions. The practice in vogue in this State by which national banks, doing a commercial business, operate so-called savings banks subsidiary thereto, as an indirect means of paying interest on deposits, which are used in commercial transactions, should be prohibited. The directors and officers of one bank should not hold similar positions or exercise control in another bank, as it tends to concentrate the control of banking facilities. The savings banks should, by law, be confined to their proper sphere and their loans should be made within the State on staple securities so as to keep the people's deposits within the State for its upbuilding and to prevent our capital being sent to other States where the rates of interest are higher. The custom of these so-called savings banks paying four per cent. interest on deposits and loaning their deposits on commercial paper in other States at rates of interest higher than those provided by statute in North Carolina should be prohibited by law.

Agriculture.

15. The influence of our State agricultural department, supplementing the work of the Federal government, upon approved farm methods, has been potential for good. It should be liberally maintained and its field of operation extended as occasion demands. The farm is the basis of our wealth. The farmers' prosperity is the nation's prosperity. Legislation, State and Federal, should be directed toward bettering the condition of the farmer, and in colaboration with his organized societies, devise ways and means to promote the highest efficiency of agriculture, in all its branches, and the welfare of the tiller of the soil.

Public Roads.

16. The convenience, economy and necessity of public roads is now recognized. The State should issue bonds and build a system of State highways from the seacoast to the mountains, cross sectioned from the Virginia to the South Carolina line, of permanent construction, and as a basis of an interconnecting system of highways all over the State, leaving the counties free to connect their local roads to such main highways

Swamp Lands.

17. The drainage of swamp land would be of inestimable advantage to the State. The State should employ engineers to lay off areas to be drained, issue bonds for the purpose and distribute the cost between the owners of the drained lands, according to the benefit each derives and collect by special assessment from the land owners, levied annually over long periods of time, the money so expected and advanced, which should be applied to the payment and redemption of the bonds issued

18. Local self-government is a fundamental policy of our political institutions. The right of a State to legislate, either under its general or police powers, in all matters of State concern, is equally fundamental. Each should be preserved in its integrity without the subordination of the one to the other. The Legislature should enact legislation of local character to the representative of a county elected upon a written platform demanding such legis-

Conclusion.

We invite the co-operation of the men and women of our State who are willing to strive in unselfish purpose to develop the natural resources, which God has given us to utilize, and to advance our civilization on high ideals of moral, social and industrial justice.

English Literature

By J. C. METCALF

Professor of English Literature in Richmond College.

This is a clear, concise, and exceedingly readable account of English Literature and its makers from the beginnings to the present day.

The book is in form and content the outcome of Dr. Metcalf's signally successful experience as a teacher of English Literature and has the merit of having been written "with a definite set of individuals in view."

DR. EDWIN MIMS,

Vanderbilt University.

"I have read with much interest and admiration Professor Metcalf's History of English Literature and regard it as one of the very best books of its kind.. The summaries of the various periods of literary history, the characterizations of individual authors, the very felicitous use of apt quotations, the illustrative material, the bibliographical notes—all strike me as very noteworthy. The book is accurate without being pedantic or academic; it is written in a style that interests the student and the general reader. I see no reason why it should not be extensively used in high schools and colleges."

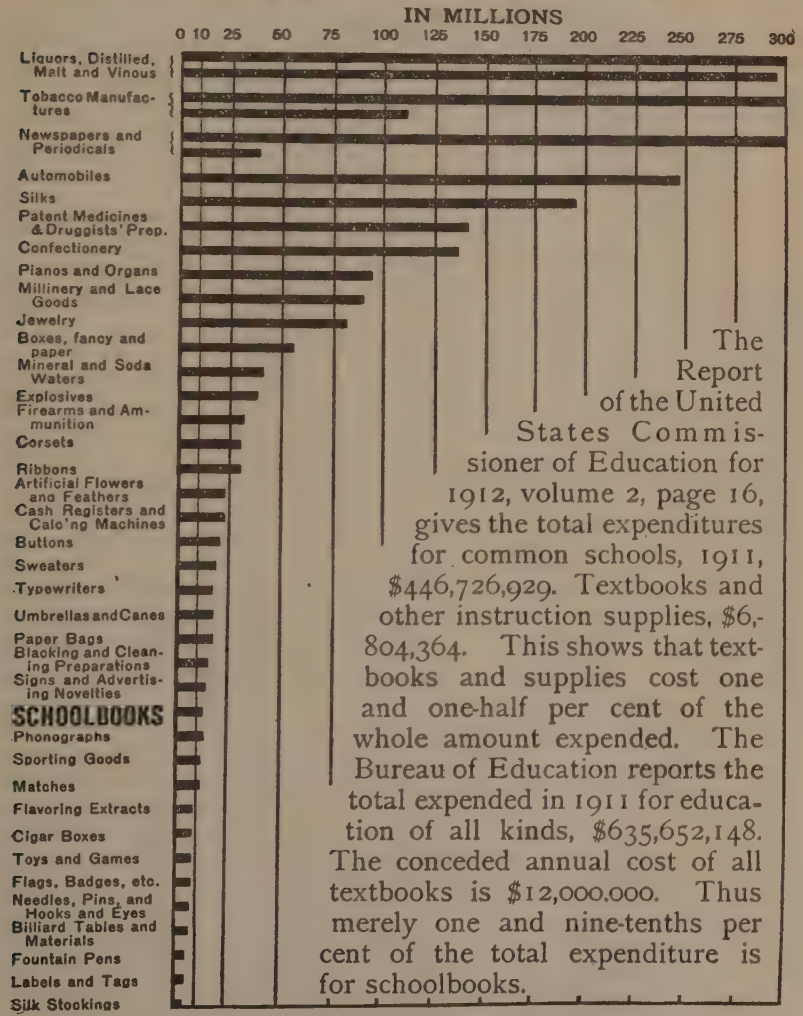
THIS diagram, based on U. S. Census Bureau Bulletin, 1910, shows a comparison of the values of certain common necessities and luxuries used in 1909 by the people of the United States. Note the small amount spent for schoolbooks.



The Report of the United States Commissioner of Education for 1912, volume 2, page 16, gives the total expenditures for common schools, 1911, $446,726,929. Textbooks and other instruction supplies, $6,804,364. This shows that textbooks and supplies cost one and one-half per cent of the whole amount expended. The Bureau of Education reports the total expended in 1911 for education of all kinds, $635,652,148. The conceded annual cost of all textbooks is $12,000,000. Thus merely one and nine-tenths per cent of the total expenditure is for schoolbooks.

THE SOUTHERN RAILWAY

Realizing that the success of a railroad is dependent upon the prosperity of the country and the people which it serves, the **Southern Railway** is working through its various agencies to increase and improve the Agricultural and Industrial conditions along its lines.

The **Land and Industrial Department,** through its Southern, Western, Northern and European Agents seeks to locate in the Southeast thrifty settlers, who will establish dairy and poultry farms, raise beef, hogs, horses and mules; grow truck and the fruits which thrive in this favored country. A fully equipped dairy car is operated continuously in an endeavor to increase the dairy interest and is supported by agents who travel constantly in behalf of this important industry.

This department also assists manufacturers in locating new factories and aids wherever possible in the development of the Southeast country.

Under the **Department of Farm Improvement Work,** field agents are located in all the important agricultural districts along the

SOUTHERN RAILWAY LINES

to co-operate with farmers to secure greater crop yields, to combat the boll weevil and solve other problems confronting them.

Live Stock Agents are located at convenient points to co-operate with beef, hog, sheep and other live stock raisers throughout the South.

The Market Agents, located at several central shipping points, assist farmers in finding the best markets for their crops.

All the services of these departments are entirely free.

Information by those desiring farms or factories will be furnished by

M. V. RICHARDS, Land and Industrial Agent

PARCEL POST INFORMATION

Unsealed matter of the fourth class, which embraces all mailable merchandise, including farm and factory products, not exceeding in size 72 inches in length and girth combined; and not exceeding 50 pounds in weight in the 1st and 2nd zones, and 20 pounds to all other zones, bearing the name and address of the sender, and prepared for mailing in such manner that the contents can be easily examined, is mailable at the rates of postage provided for in the accompanying table.

March 16, 1914, parcel post service is extended to include books. The rate of postage on books weighing 8 ounces or less is one cent for each 2 ounces or fraction thereof and on those weighing in excess of 8 ounces the regular zone rate applies.

The rate to any point in the Hawaiian Islands, Alaska, Canada, Canal Zone, Cuba, Mexico, Panama, Philippines and to the United States Postal Agency at Shanghai, China, (except for parcels weighing four ounces or less) is 12 cents for the first pound and 12 cents for each additional pound. Parcels for the Canal Zone, with commercial value, and for Mexico and Panama must be accompanied by custom declaration. Parcels for Canada and Cuba must not exceed four pounds, six ounces in weight; those for Mexico and Panama cannot exceed that weight unless sent by international parcel post.

A mailable parcel may be insured against loss in an amount equivalent to its actual value, but not to exceed $25.00 on payment of a fee of 5 cents and in an amount equivalent to its actual value in excess of $25.00, but not to exceed $50.00, on payment of a fee of 10 cents in stamps affixed in addition to the required postage.

The sender of a mailable parcel on which postage is fully prepaid may have the price of the article and the charges thereon collected from the addressee on payment of a fee of ten cents in postage stamps affixed, provided the amount to be collected does not exceed $100.00. Such a parcel will be insured against loss, without additional charge, in an amount equivalent to its actual value, but not to exceed $50.00.

AGRICULTURAL and MECHANICAL COLLEGE for the COLORED RACE

GREENSBORO, N. C.

Open all the year round for males only. Nowhere else in the country can better facilities for practical education be secured on such easy terms. Do you know a young man who is unable to pay, but who is willing to work for an education? Do you know a young negro who is ambitious to become a good farmer or mechanic? If so, please recommend him to write for catalog or further information.

October 12—Columbus Day—In California, Colorado, Connecticut, Illinois, Maryland, Michigan, Missouri, Montana, New Jersey, New York, Pennsylvania, Massachusetts, Alabama, Vermont, Indiana, Delaware, Rhode Island, Kansas, Oklahoma, Oregon and Washington.

November (Tuesday after the First Monday)—General Election Day—In Arizona, California, Colorado, Delaware, Florida, Idaho, Illinois (in Chicago, Springfield and East St. Louis only), Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio (from 5.30 a. m. to 9 a. m. only), Oklahoma, Oregon (for Presidential elections only), Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Washington, Wisconsin and Wyoming in the years when elections are held therein.

November—Thanksgiving Day (usually the fourth Thursday in November)—Is observed in all the States and in the District of Columbia, though in some States it is not a statutory holiday.

December 25—Christmas Day—In all the States and Territories and in the District of Columbia.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

In Kansas Decoration Day, Labor Day and Washington's Birthday are the only legal holidays by legislative enactment; other legal holidays are so only by common consent. In New Mexico Decoration Day, Labor Day and Arbor Day are holidays when so designated by the Governor.

Arbor Day is a legal holiday in Arizona, Maine, Maryland, New Mexico, Wisconsin and Wyoming, the day being set by the Governor in Texas, February 22; Nebraska, April 22; Utah, April 15; Rhode Island, second Friday in May; Montana, second Tuesday in May; Colorado (school holiday only), third Friday in April; in Oklahoma, the Friday following the second Monday in March; in Arkansas, first Saturday in March.

Every Saturday after 12 o'clock, noon, is a legal holiday in Illinois (in cities of 200,000 or more inhabitants), Maryland, Michigan, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, the District of Columbia (for banking purposes), and in New Orleans, La., and Charleston, S. C.; in Louisiana and Missouri in cities of 100,000 or more inhabitants; in Tennessee, for State and county offices, and in Colorado during June, July and August, in New Castle County, Delaware.

There is no National Holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress, it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

PERQUIMANS COUNTY

COUNTY SEAT, HERTFORD.

POPULATION—(Census 1910), 11,054.

Formed in 1672 as a percinct of Albemarle county, and in 1738 was made a county. Name derived from tribe of Indians who occupied the region. It was here that George Durant, famed in the early Colonial History of the State, settled and received deeds from the Indians, which deeds can now be seen on record at Hertford. Part of the county still bears the name "Durants Neck." At Phelps Point, which is now the town of Hertford, the first religious service in North Carolina, of which there is any authentic record, was held. The records in the country are among the oldest and most interesting in the State. One section of the county was settled and is still peopled by the Friends or Quakers.

AREA—220 square miles.

Value of real estate, $1,646,483; value of personal property, $1,088,142.

Property listed in 1913, by whites, $2,395,894; by negroes, $338,731.

TAX RATE—County purposes, 19c. on the $100; special, 5c.; roads, 40c.

A Better Grade of Tobacco

and MORE OF IT, can be raised per acre if you fertilize liberally with

Virginia-Carolina

High-Grade

Fertilizers

before planting. Nourish with the same plant food during growth, and use modern farming methods if you have not already adopted them. V.-C. Fertilizers are vastly superior to other tobacco fertilizers. Profitable Tobacco Culture is fully explained in our free 1913 FARMERS' YEAR BOOK or almanac, which will be sent to you on your request.
